ANACORTES, WA 98221-1513

The Fidalgo - San Juan Island Chapter of Puget Sound Anglers offers grants and scholarships at two levels for students who are going into the field of fisheries.

One category is for students graduating from high school who would like to pursue continuing education or achieve a degree in fisheries or environmental sciences. Our hope is that this scholarship is used for a student that would like to become a biologist within the Department of Fish and Wildlife.

Our other scholarship is for students who have junior or senior class standing or will be receiving an associates degree or higher in fisheries and will be pursuing an advanced degree in fisheries management. Once again our hope is that the recipient of this scholarship is also a student that would like to become a biologist within the Department of Fish and Wildlife.

With our grant program we are looking for outstanding undergraduate or graduate applicants, enrolled on a substantially full-time basis and pursuing a major field of study closely related to Fisheries Biology or Fisheries Management. Preference will be given to students who have exhausted previous funding and/or have completed a rough draft of their thesis and may complete it within one year, and/or are specifically researching Pacific Northwest marine finfish.

These scholarships are being funded through the generosity of our club members and the Anacortes Salmon Derby. If you would like to become a contributor or if you would just like to make a donation contact a member in the Fidalgo - San Juan Island Chapter of the Puget Sound Anglers or call Steve Stout at (360)826-3858 for more information. We are a 501(c)3 corporation and your contribution may be tax deductible.

Donations may be sent to:
